General Comment:

On 8/21/2024, Reclamation Specialist Trujillo conducted a final reclamation inspection at SWN Production Company LLC's Antietam 11-12 location in Moffat County, Colorado.

It was observed in this inspection that reclamation has not been completed pursuant to 1004 requirements.

The following compliance issues were observed during this inspection:

- Uniform desirable vegetative establishment
- Access Road Reclamation
- Weeds

Refer to the Reclamation section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

ECMC Comments		
Comment	User	Date
<p>Pursuant to Rule 1004.a, all debris and surface equipment shall be removed within three (3) months of plugging a well. Well locations, access roads and associated facilities shall be reclaimed. As applicable, compaction alleviation, restoration, and revegetation of well sites, associated production facilities, and access roads shall be performed to the same standards as established for interim reclamation under Rule 1003. All other equipment, supplies, weeds, rubbish, and other waste material shall be removed. All such reclamation work shall be completed within twelve (12) months on non-crop land after plugging a well or final closure of associated production facilities.</p> <p>Inspection #702800325 observed that the Location was not reclaimed in accordance with 1004 requirements- surface equipment (risers and utility equipment) remains; access road has not been reclaimed; compaction issues apparent; revegetation has failed. Inspection required Operator to perform final reclamation.</p> <p>It was observed in this inspection that the Location has not been reclaimed in accordance with ECMC 1004 Rules; no Resolution Form stating Reclamation corrective actions per inspection #702800325 have been taken or completed pursuant to Rule 210.b.</p> <p>The access road on the south end of the Location has not been reclaimed; vegetation on Location remains predominantly undesirable plant species and noxious weeds including Scotch thistle. Corrective actions per inspection #702800325 have not been addressed in entirety.</p>	trujilloam	09/05/2024
