

Daily Operations

Well Name	Surface UWI	Primary Job Typ	Start Date	Summary
Wass 3	0512313271	WBI - Abandon Well PDC	8/7/2024	The well had no pressure and we were able to tag cement at 110' from surface. I had a cement crew come out and install a 10-sack cement plug at surface before capping the wellhead. Well was cut and capped.
