RE: Northern Pump Co.  
Well No. 3-1 Govt.  
SE SE 3-1N-102W

Dear Sir:

Rule 5 of Order No. 2-32 for the Rangely Weber Sand Unit Area requires that the unit operator be furnished a copy of an intent to drill to the Weber formation for a well to be located in the marginal area, prior to approval by the Director.

We regret that a permit to drill was inadvertently approved for the above referenced well before notifying Chevron. A review of the location indicates all requirements of said Rule 5 have been met. However, Northern Pump Co. will not commence operations until approval from all parties have been received.

Please advise us concerning this matter within the 10 day period in accordance with said Rule 5(a).

Very truly yours,

Frank J. Piro,  
Deputy Director-Secretary
