OPTOMETRIST
ALBUQUERQUE, NEW MEXICO

March 1st, 1962.

well fill

Mr. Wm. R. Smith,
Senior Petroleum Engineer,
Denver, Colorado.

Dear Mr. Smith;

In reply to your letter of February 9th, regarding the Chas. Ellis well #1, Sec. 8 T. 35 No. R. 13 West, I have taken over the title to same Lease. I am holding the title papers but need one more signature so I may record the same. I told Berger & Briggs how the situation was at the time, before they completed the Bond.

Before we continue with this well I will be in touch with your department.

Regarding the Report on the Government Well No. 1 Drilled in Section 9, Town. 1 No. Range 80 West, the Driller is out of town but is expected in here sometime next week, when we will endeavor to make an effort to complete the report.

Very truly yours,

Dr. L. O. Hickerson.

*Gov.
Hickerson
&
Lidell*
