**General Comment:**

On 9/27/2024, Western Reclamation Work Lead Trujillo conducted an inspection at Laramie Energy LLC's Piceance/28-11 Pad Location in Mesa County, Colorado.

The following compliance issues were observed during this inspection:

- Spills
- Wildlife protections

Refer to the Location section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

<b>Good Housekeeping:</b>			
Type	WEEDS		
Comment:	Noxious (Canada Thistle, Musk thistle) weeds observed within the interim areas of the Location, and along the access road. Noxious weed management efforts by Operator also evident, though some weeds were observed to still be alive- ongoing weed management efforts will be required until Location receives a passing final inspection. A follow-up inspection will be conducted during a future growing season to evaluate compliance with 1003.f and 606.c requirements.

1003 f. Weeds Noxious weeds? I

Comment Though there is approximately 1/2 acre on the west end of the well pad that does not appear to be necessary for production, no additional reclamation work is being required at this time; vegetation within the reclaimed areas of the Location appears to be progressing towards EMCM 1003 revegetation standards. Noxious weed issues observed throughout the interim (see good housekeeping).

Continue to monior and manage inteirm areas. Conduct work as necessary to ensure site progresses towards 1003 standards.
