Type of Spill: _____		Estimated Spill Volume: _____	
Comment:	<div>Remediation Project #4159 has been closed and approved under a Form 27 regarding the closure of the Saulcy pit (#110478). The Saulcy pit appears to have serviced three different wells and was located at the Saulcy #1 well location (069-05048). The referenced well is currently underway with plugging operations. The pit area will be assessed at a future date in association with the final reclamation inspection at Saulcy #1.</div>

Comment:

<p>At the time of this inspection, the crop field (alfalfa) has been recently harvested. Even though the field was harvested, Staff was able to assess vegetative establishment and compare that to reference crop areas.</p> <p>The previously observed reclamation issues were not observed. The location meets final reclamation regulations and standards. Unable to find evidence of oil and gas activities and/or disturbances. The location and associated disturbances are reflective of reference crop areas. Refer to the attached inspection photos.</p>		Date _____
