TOTAL % OF DESIRABLE VEGETATION COVER \_\_\_\_\_

VEGETATIVE COVER \_\_\_\_\_

Comment: The location has been recontoured and reclaimed. The soils were tracked and hydromulched for temporary stabilization. There is an electric utility that dead ends at this location that must be removed back to where it is currently in use. Operator will need to coordinate removal with the utility company.

Corrective Action: Remove electric utility per 1004 Rules. Date 11/30/2024

Overall Final Reclamation	In Process	Well Release on Active Location	Multi-Well Location
---------------------------	------------	---------------------------------	---------------------

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: The soils are tracked perpendicular and have been lightly hydromulched for temporary stabilization. There is silt fence installed at the edge of the northern reclamation area. There are berms and rip/rap for outlet protection. The outlet protection at the east side of the location appears to be overbuilt and slightly higher gradient. Stormwater BMP's will need to be monitored and maintained to prevent erosion.

Corrective Action: Date:

Pits: ☒ NO SURFACE INDICATION OF PIT
