**General Comment:****ECMC Inspection Report Summary**

On Tuesday 11/12/2024, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus H36, at Location # 334974 in Garfield county Colorado. This is a shared location with location # 334904, see inspection #707801213 for C/A.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Some areas of access show signs of lack of stabilization/ compaction.
2. Holes in liner on tank containment bottom

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.

**Location**Overall Good: ☐**Signs/Marker:**

Type	OTHER		
Comment:	Separator units include attached storage tanks. The sight glass located on the side of the unit indicates the storage tank is full of an unknown fluid. No form of labeling or markers are present to identify a potential hazard or the contents of the storage tank.
