Re: Approval to Subsurface Commingle Twelve Amoco Operated  
Wells in Weld County

Dear Mr. Hawkins:

I am pleased to advise you that on November 25, 1985 I approved your request of November 4, 1985 on subject matter. A copy of that letter is attached for your file.

At that time I expressed some concern over the differential downhole pressures for the various formations. Since this is important information for proper conservation and critical to the maximum ultimate recovery from these reservoirs, any information on completion, downhole flow measurements or similar data that you could share with us would be greatly appreciated and in the best interest of the industry as a whole.

Yours very truly,

*William R. Smith*
