Gentlemen:

On October 29, 1985 we issued permit No. 85-1528 to drill subject well with an expiration date of February 28, 1986. Since February we have written you twice requesting information as to whether or not the well was ever drilled. To date we have received no reply.

Unless we hear from you by July 20, 1986 we will assume the well was never spudded and any operations at this location without further approval will be considered a violation of the rules and regulations of the Oil and Gas Conservation Commission.

Very truly yours,

William R. Smith
