#### OPERATOR COMMENT AND SUBMITTAL

Comment: Four of the five remaining corrective actions identified have been resolved. PRM is actively working towards compliance with Rules 606.c and 1003.f. in keeping Location free of all Undesirable Plant Species. Ongoing weed monitoring, treatment, and management will continue until compliance is achieved. Please know there is now a integrated noxious weed management plan and an additional subcontractor to treat noxious weeds in place for the 2025 season.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
