**General Comment:****ECMC Inspection Report Summary**

On Friday 11/15/2024, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus Granlee OM C10, at Location # 335876 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Access roads shows signs of lack of stabilization/ compaction and no evidence of tracking controls.
  2. 95 BBL condensate tank is open to atmosphere
  3. Random debris and dead weeds under burner assemblies at separators.
- Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.

Reclamation - Storm Water - Pit

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
		Gravel				Sparse to none
		Culverts				
		Sediment Traps				
		Ditches				
		Compaction				Light compaction in areas

Comment: Places with sparse to no gravel & light compaction are present on lease road. At the time of this inspection the location and portions of access road are snow covered; maintenance may be necessary to prevent degradation to the lease roads in the near future. Sparse to no gravel and light compaction could lead to future stabilization issues.

Corrective Action: Maintenance relative to storm water runoff, operators shall consider seasonal factors, such as winter snow cover and spring runoff from snowmelt, to ensure site conditions and controls are adequate and in place to effectively manage storm water.
