

Operator: Extraction Oil & Gas Inc

Location Name: ROCKY MOUNTAIN FUEL-62N67W 32NESW

Loc ID: 318045

Inspection: 713901070

Exhibit A

Exhibit B

CA: At the time of inspection the Operator had performed final reclamation activities at the well location with evidence of desirable vegetation and some tumbleweed growth. However, the gravel access road remains and should be removed. Operator shall continue to monitor and manage the former well location until it meets Rule 1004 standards, including stormwater and weed management. Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. ECMC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1004. The Operator shall comply with Rule 1004 to remove and reclaim the access road to the well location. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, noninvasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.

CA Resolution: The operator has provided photo evidence showing that the location has been final reclaimed. Ten loads of road base were removed, topsoil was brought in to recontour and seed, and the area has been stabilized with crimped straw mulch.
