Gentlemen:

We have mis-placed the completion report on the Horn #1 described on the enclosed Sundry report dated April 13, 1977. Would you check your file on this well and send a copy of the completion report to me at the above address.

Sincerely.

Gentlemen: The enclosed completion report you sent was from the original dry hole. The one I want is signed by me and would be dated in 1977. Would you check your files again, —
