Good afternoon Dale,

I am following up on the FORM 9 submission for CPX Piceance (10639) with TEP ROCKY MOUNTAIN LLC (96850). I noticed that there are two wells affiliated with location **334457** which were not included on the transfer request.

- 05-045-22153
- 05-045-22155

Would you please confirm if these wells should be included in the sale/transfer to TEP, or alternatively, does CPX intend to keep these wells and not transfer them to the buyer, TPX. If the latter, would you please provide the reasoning.

Thank you.

Regards,
Corinna Lyon

Corrina,

The 2 wells identified Corinna's email are included in the Form 9-I.

Here is a summary.

The wells have multiple numbering schemes in the Form 9-I data.

[05-045-22153](#) = TPR 176-25 = API Sequence No. 16948 = Facility ID 05-045-22153[05-045-22155](#) = TPR 112-16 = API Sequence No. 16946 = Facility ID 05-045-22155

Well Pad 25A TPR-1 and each well on Pad 36A similarly transferred in the 9-1 by API Sequence No.

Here are the wells in COGIS:

A small icon representing a missing image file named image002.png.

The wells downloaded in Webforms by Operator for the 9-I:

A small icon representing a missing image file named image003.png.

They transferred during the Webforms upload to the 9-I as shown:

A small icon representing a missing image file named image001.png.

Let me know if this helps answer your question.

Have a happy holiday!

Good afternoon Dale,

Thank you for your reply. Based on your email, I see that the 9-I should be transferring wells 045-22153 and 045-22155, instead of the abandoned location permits of wells 045-16948 and 045-16946. I will make those changes to the 9I well list as it is no longer in "draft" status and you are not able to access it.

Please note that there is a mirror issue with the well list included on TEP's 9-S (403600833) which is in "draft" status. I see that Jeff is on this email. It would be helpful for Jeff/TEP to update the draft 9-S prior to submitting in order to accommodate these corrected well numbers.

Regards,
Corinna Lyon

Good morning Jeff,

I am following up on my email communication to you and Dale from late last year. I see that the Form 9-Subsequent #403600833 from TEP Rocky Mountain is still in "draft" status.

I will be leaving my position here at ECMC at the end of next week. Is there anything that I can assist with so that we can complete the transfer forms prior to my departure?

Regards,

Corinna Lyon

Corinna,

Thank you very much for reaching out. The Form 9 will remain in DRAFT until a final transfer date is made official and any agreement between operators is finalized. I will ensure that the changes you note below are reflected on the submitted Form 9-Subsequent.

Good luck with the future and thank you again for reaching out!
