**General Comment:**[CECMC Inspection Report Summary](#)

On 12/3/2024 at approximately 12:00 hours, Compliance Inspector Dusty Popejoy conducted an on-site inspection for plugging operation at QB ENERGY Mesa/E1-797 at Location ID #441653 in Garfield County, Colorado.

While there, I observed wireline coming out of hole after setting bridge plug on Puckett 23B-1 well.

During the inspection, the following compliance issues were observed:

1. Diesel tank not properly labeled, missing required information with a CA of 01/6/2025

This location is within or in close proximity to, a CPW Density/High Priority Habitat, Black Bear, NSO Habitat, or Wildlife Management area.

Limited inspection due to ongoing plugging operations on location.
