Re: Designation of "Newton-
Associated Unit "A" Lease
Well #1. - Rangely.

Colorado Gas Conservation Commission
300 Logan Street
Denver, Colorado

Attention: Mr. W. Roy MacGinnis

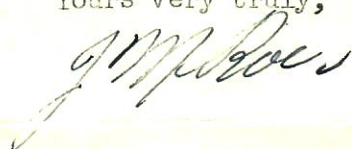

Dear Sir:

Please refer to your letter of January 9, 1947, regarding the designation of a well we recently completed as Newton-Associated Unit "A" Well #1 in the Rangely field.

You are correct in assuming that Associated "B" Unit #1 and Newton-Associated Unit "A" #1 are one and the same well. After this well was commenced, its name was changed from Associated "B" Unit #1 to Newton-Associated Unit "A" #1. We are sorry that we failed to inform you of this change. The well is described as being located 1880' south of the north line and 1898' west of the east line of Section 4 T-1N, R-102W, Rio Blanco County, Colorado. We note your letter carries the description as T-2N in the second paragraph.

We ask that you kindly change the name of the well on the Notice of Intention to Drill which will straighten out this matter.

Yours very truly,

CJC/bb
cc: Mr. J. L. Nichols
