Operator Chevron U.S.A. Inc. 16700

Address of Operator 100 Chevron Rd, Rangely, Co. 81648

Operator's Rep. at Test A. Roberts

Phone No. (303) 675-3700 Address SAME AS ABOVE

BOTH PART I AND PART II NEED TO BE COMPLETED BEFORE WELL INTEGRITY REPORT IS SUBMITTED.

Part I Choose one of the following: (Attach pertinent charts and documentation)

[1] Tubing - Casing Annulus Pressure Test Test Date 10-27-86

yes   
no

Prior notice given to Commission of test   
Commission representative at test

No Test run after January 1, 1984 will be accepted without prior notification of the Commission.  
A pressure chart is required for any test not witnessed by a state representative.

Test Data:

Test Pressure 750 ~~780~~ psi

Tubing Pressure during Test 0 psi Status:  Injecting  Shut-In

Pressure drop or gain during Test 0 psi

Packer depth 5417 ft.

Injection Interval 5417 ft. to 5449 ft.

Pressure Test should be a minimum of 15 minutes at 300 psi or minimum injection pressure, whichever is greater.

*JR*

[2] Monitoring Tubing-Casing Annulus Pressure (Must have positive pressure and be reported monthly on Form 14 for 60 consecutive months)

Date of initial pressure test 10-27-86

Test Pressure 750 psi

[3] Alternate Test Approved by Director

Date Approved \_\_\_\_\_ Test Date \_\_\_\_\_

Part II Choose one of the following: (Attach pertinent charts and records)

1. Cementing Records

	size	depth	no. sks cement	calculated cement tops
Surface casing	_____	_____	_____	_____
Production casing	_____	_____	_____	_____

2. Tracer Survey Test Date 10-27-86 to 6/10/82

3. Sonic Logs (CBL, etc.) Test Date not attached

4. Temperature Survey Test Date \_\_\_\_\_

5. Alternate Test Approved by Director

Date Approved \_\_\_\_\_ Test Date \_\_\_\_\_

I hereby certify that the results of these test are true and correct.
