Comment:

Records show well was P&A in 2009 by Encana.

Limited inspection due to snow cover. No equipment observed; areas have been sufficiently countoured. Access road has not been reclaimed; after review of historic aerial imagery, access road appears to pre-exist the O&G Location. Based on areas of the Location that were observable, it appears Location has either met, or is progressing towards ECMC 1004.e standard.

A follow-up inspection will be conducted once the snow clears to make a more accurate assessment of the reclamation.
