General Comment:

On 12/18/2024, Western Reclamation Work Lead Trujillo conducted an inspection at Encana Oil and Gas (USA) Inc's Stewart Compressor (PL36SW) Location in Mesa County Colorado.

All records on file show that this Location belongs to Encana, however, signage throughout the Location suggests Caerus is responsible for the site; it is likely that this Location belongs to Caerus and was not properly transferred. However no records showing transfer of ownership from Encana to Caerus exist within the Location's scout card file. Therefore this inspection, and any corrective actions within, are being submitted to both Operators. It is the ECMCs expectation that both Operators will collaborate to resolve any outstanding ownership issues, and to provide ECMC with updated records of ownership.

This inspection is a follow-up to #696206092 to document compliance with the following corrective actions:

- Weeds
- Wildlife Protections
- Signage
- Stormwater

It was observed in this inspection that the CA has been resolved.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.
