Commission**

Department of Natural Resources

Inspection Photos  
Location Name: SELTZER PP Facility/61S67W  
Location ID: 460732

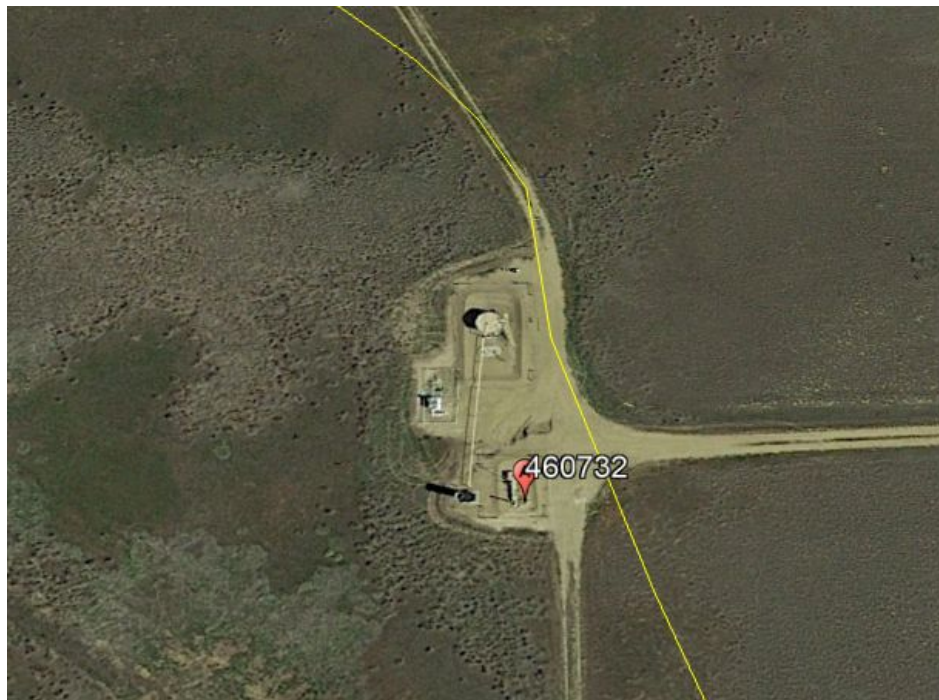

**Photo 1.** Photo taken from east side of site looking west. No oil and gas equipment remains on site. Appears to have been reclamation activity such as recontouring and reseeding. Desirable vegetation is progressing outside of access road. Undesirable weedy annual Kochia is present on location.

**Photo 2.** See Photo 1 comments. Former access road may need additional decompaction and reclamation work.
