## Narrative

Include specific incident information and mitigation actions taken to stop and clean-up the spill/release

Flowline between east well header rack and bulk separator leaking under surface. 24 hour pad supervision shut in corresponding wells and isolated the correct flow line. The active leak immediately stopped. Hydrovac was dispatched all free liquids were recovered and some contaminated soil. Investigation and cleanup under way.

Acknowledgement

I acknowledge that a written follow-up notice must be submitted to Weld County OEM/LEPC as soon as practicable after the release. The follow-up notice must update information included in the initial notice and provide information on actual response actions taken and advice regarding medical attention necessary for citizens exposed.
