Operator Comments:

The Subject Well Site is plugged and abandoned, and ENR has completed the reclamation requirements to restore the land to its pre-development condition consistent with landowner consent, including removing all associated production facilities and equipment and revegetating disturbed areas. ENR and the surface owner entered into Surface Owner Waivers for the access points, roads, and small improvements the surface owner wants to retain. ENR's requested variance from the final reclamation requirements respects the Landowner's express wishes. The Application for Rule 502 variance from the final reclamation requirements of Rule 1004.a for access points and roads, including roads that predate oil and gas development, and other small discrete improvements that the surface owner wants to retain at the Powerglide Well Site in Las Animas County, Colorado is GRANTED.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
