OPERATOR COMMENTS AND SUBMITTAL

Comments

Locin is planning on plugging and abandoning the Federal 31-15 well this September. We will be abandoning the off-location flowline, but it was never previously registered, so we are submitting this to correct the record. We do not have records of its construction but are basing dates on historically accessible files. We are planning on removing the off-location flowline following the plugging of this well in the future.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
