Comment:

Records show well was PA 2017; Inspection #696202094 observed that reclamation had not been performed in accordance with 1004 Requirements. Inspection required Operator to comply with 1004 Rules.

Operator submitted FIRR #402706344 stating CA complete 6/1/2021.

It was observed in this inspection that the corrective action has been completed, and vegetation on the Location is progressing towards an 80% uniform, desirable perennial vegetative cover.

Continue to monitor and manage Location. Once Operator has determined site meets 1004 Standards, submit a Form 4 Sundry "Final Reclamation Complete" notice and a final inspection will be scheduled.

Note to Operator- Vegetation looks good, I anticipate that the perennial vegetation will outcompete the remaining weeds (Kochia/Salsola) on the Location, and that the site will likely meet 1004.c.(2) uniform standards in a 1-2 more growing seasons.
