1003 f. Weeds Noxious weeds? _____

Comment

Interim reclamation is not progressing at the location or along the flowline disturbance area. It appears recent work has been performed at the well and soils have been disturbed and compacted. There is subsidence along the flowline that will need to be filled in. The disturbed soils need to be decompacted, reseeded, and stabilized before this upcoming growing season.

Corrective Action

Comply with 1003 Rules.
