Comment

Inspection doc #693901604 observed weedy kochia dominating interim reclamation areas and required compliance by 5/1/2020. It was observed in this inspection that reclamation/reseeding efforts were unsuccessful, weedy kochia remains dominant in interim reclamation areas with little to no desirable vegetation observed. Original CA has not been addressed. Original CA and date remains applicable. No CA date is being provided as this location is out of compliance for the same Rule.

Corrective Action

Manage (i.e. mow) weed debris to encourage establishment of desirable vegetation and prevent debris dispersal. Conduct revegetation within portions of the interim reclamation area with bare soils and sparse vegetation exist.
