---	--	---

14. DESCRIBE PROPOSED OR COMPLETED OPERATIONS ON THIS FORM (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent)

15. DATE OF WORK 8/1/91

Mitchell Energy Corporation, as agent for CMO Resources, Inc. proposes to abandon the above referenced well by setting a cast iron bridge plug at ±2000' and dumping 5 sxs cement on top. A freepoint of the casing will be made to determine if any salvageable casing can be found. If found the casing will be cut and removed and a 100' cement plug will be placed across the casing stub (50' inside & 50' outside). Another 100' cement plug will be placed across the surface casing shoe (150'-250'), and a 25' cement surface plug will be set after cutting the casing ±6' below ground level. A dry hole marker will be installed and the location will be reclaimed.

16. I hereby certify that the foregoing is true and correct
