Comment This location does not comply with Rule 1003. The location does not appear to be progressing towards reclamation standards and regulations with little evidence of desirable native vegetation observed. Vehicle traffic is occurring within the interim areas and hay/manure is dumped near the northwest corner of the location (see "Good Housekeeping" comment). Additional reclamation activities are required until the well is PA'd (Form 6A doc #403226263; Plug Date: 12/31/2027) and the location undergoes final reclamation. Refer to attached inspection photos.
