Comment:

This location does comply with Rule 1004 Reclamation Standards. There are bare soil patches, weedy vegetative growth, and evidence of disturbance at the well and tank battery location. Comply with 1004 rules to vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels.

It appears the Operator did not respond to the September 2022 corrective action to perform additional reclamation activities and the Operator failed to submit a FIRR in response to the 2022 corrective action inspection.
