General Comment:

On March 19, 2025, ECMC EPS Laurel Anderson performed an environmental inspection of the following:

Kerr McGee (Operator) Remediation Project #25682

DITLEV-SIMONSEN GAS UNIT-62N67W31NWSW - Location ID #318360

Ditlev Simonsen GU 2 O SA Release - Spill ID #483688

Date of Discovery: 1/6/2023 (CL)

Any corrective actions from previous inspections that have not been addressed are still applicable.

Photos attached to document site conditions at the time of inspection.

Photos are labelled Ditlev Simonsen

Stockpiled soil, open excavation and orange construction fencing visible in photos are associated with a 3rd party.

The former tank battery and historic releases are located within the Town of Frederick.

No Operator personnel were on location at the time of inspection.

The remedial excavation has been backfilled and monitoring wells installed. Groundwater was previously observed in the open excavation at ~10' bgs.

The last Supplemental Form 27 for Remediation Project #25682 was received on 1/17/2025 (Doc #404022714).

Comment

Surface has been disturbed by spill response and remediation activities.
All disturbed areas shall be reclaimed as early and as nearly as practicable to their original condition or their final land use as designated by the surface owner and shall be maintained to control dust and minimize erosion to the extent practicable.

Corrective Action

Operator shall restore and revegetate all disturbed areas in accordance with Rule 1003.b. and 1003.e.(2). Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management.

Reclamation activities shall be complete as soon as environmental conditions will permit.
