**General Comment:**

ECMC Inspection Report Summary

On Tuesday 4/8/2025, I, Inspector Scott Ramsey, conducted a follow up inspection/audit at Caerus RD10, at Location # 334686 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Holes in secondary containment. Talked with pumper and he was going to patch the small holes but didn't have the material for the big hole where pack rat made home. Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
