General Comment:

This is a follow up of the previous inspections; #713600863, #713601093, #713601333, #713601827.
 The corrective actions of the previous inspections have not been completed.
 Non-compliance with the Rules will be referred to enforcement.
 Operator is directed to perform corrective actions outlined on this inspection report immediately.

Location				
Lease Road:				
	Type	Access		
	comment:	There are areas where vehicles have driven outside of the access road boundary causing unnecessary disturbance that will need to be reclaimed. There are areas of the access road that are not maintained. Repeated or flagrant instance(s) of failure to restrict lease access to lease roads which result in unreasonable land damage or crop losses shall be subject to a penalty under Rule 523.		
	Corrective Action:	Operator shall abide by the reclamation rules to minimize surface disturbances per the 1002e rule.	Date:

Spills:				
	Type	Area	Volume	
		Pump Jack		
	Comment:	The leaking engine motor has been removed since the previous inspection. There is sand spread around the pumpjack to cover up the oil stained soils. The oil stained soils have not been cleaned up and properly disposed. Previous corrective action was not completed.		
	Corrective Action:	Non E&P Waste not properly stored, handled, transported, treated, or disposed per Rule 906. Conduct maintenance on equipment, cleanup stained material and review self inspection processes.		
			Date:	
	Crude Oil	WELLHEAD		
	Comment:	The spill that was initially observed on 3/26/24 has not been cleaned up. There was sand spread over the top of the spilled area to cover up the oil stained soils. There has been no form 19 spill report submitted to report the spill. Previous corrective action was not completed. It appears additional leaking at the well has occurred. There is oily waste spread across the location and there are signs vehicles have driven over and tracked the oil stained soil. Previous CA was not completed.		
	Corrective Action:	Control and contain spills/releases and clean up per Rule 912.a. Report spill or release of E&P waste or produced fluids Remove free fluids and contact EPS staff per Rule 912.b.

1003 f. Weeds Noxious weeds? _____

Comment

There has been new disturbance with the installation of the buried electric utility line. The disturbed soils will need to be seeded and stabilized before the upcoming growing season. Additionally all areas of disturbance where vehicles drove around the damaged access road will need to be reclaimed. This will require soil decompaction and reseeding of these disturbed areas. Previous CA was not completed.

Corrective Action

Comply with the 1003 interim reclamation rules.
