Comment: **The access road and location have not been reclaimed. There are areas of erosion which are not stabilized with vegetation. The cut slope is eroded and has not been recontoured back to the approximate grade. There are cement blocks and wood debris that remains. It appears there are areas of soil impacts or compaction preventing vegetation growth. Previous Corrective Action has not been completed.**

<span style="color: blue;">Opertor has indicated that a reclamation variance will be requested. No further update has been provided.</span>	CostaR	04/14/2025
<span style="color: blue;">Upon further inspecting of this abandoned wellsite, it appears a historical spill may have occurred. There is vegetation impacts at the former wellsite area and approximately 200 ft. northwest and downhill from the well. A suspected or historical spill needs to be investigated by submitting a form 19 report.</span>	CostaR	04/14/2025
