RE: #11-24 Box Elder Farms CE1/2 SW 11-3S-65W  
FAILURE TO RESPOND TO REQUEST FOR INFORMATION

Dear Mr. Sodden:

The subject well was plugged and abandoned in July of 1988 per your Completion Report. We did not receive a Cement Verification with this report so we requested it in writing on 10/17/88. We have received no response to this request as of this date. This report was due in August and should not require a written request much less a letter for the Commission for such a routine report that you well know is required on all plugged wells in this state.

The excessive amount of time and effort consumed in obtaining what should be routine reports negatively affects all operators and taxpayers in this State. We will expect the Cement Verification (third party job log or ticket showing depth and volume of all plugs) in this office no later than December 14, 1988, or a written explanation of why you can not comply with the Rules and Regulations of the Commission.

Very truly yours,

Dave Edwards  
Well Records Department
