Picesance Creek Unit
Well No. 177-8 is located 1250 ft. from N line and 460 ft. from E line of sec. 8SW/4 Sec. 8 3 S 95 W 6th. P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)Picesance Creek Rio Blanco Colorado
(Field) (County or Subdivision) (State or Territory)The elevation of the derrick floor above sea level is 6739 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The interval 2575'/2651' tested gas at a rate of approximately 200 Mcf/D and 24 B/D water. It is now proposed to plug the interval 2651'/2662' in an effort to exclude water entry and test the interval 2662'/2575'.

This program was verbally approved by J. R. Schwabrow on 6-27-56

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
