Comment: This location does not meet reclamation regulations as gravel remains on location and at the access road. Weedy annual vegetation including Russian thistle (Salsola tragus) was observed across the well site and access road. Comply with 1004 rules to establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. The tank battery location is contained within a land use change.
