APPENDIX A – Site-Specific Water Plan Information

1. PLAN PURPOSE

Bison IV Operating, LLC (Bison) recognizes the need for developing a responsible water allocation plan as it pertains to Oil and Gas operations. The attached site-specific plan was developed in accordance with ECMC rule 304.c.(18).

2. OPERATING REQUIREMENTS

As of January 15, 2021, all new location permits must include a Water Plan. The water plan must identify the planned source of water to be utilized for drilling and completion operations including:

- A. The planned source and volume of all surface water and Groundwater to be used and the coordinates of the planned source of water;
- B. The seller's name and address if water is to be purchased;
- C. If recycled or reused water is anticipated to be used, a description of the source of that water, background concentrations of chemicals listed in Table 437-1, anticipated method of transporting the water, and anticipated volumes to be used in addition to the reuse and recycling plan requirements of Rule 905.a.(3); and
- D. If freshwater is anticipated to be used, a description of why the Operator does not intend to use recycled or reused water.

The operator will maintain a copy of this plan on location throughout the duration of the site drilling and completion operations.

3. SITE-SPECIFIC WATER PLAN

Bison's proposed 747 Pad will be located in Township 3 South, Range 65 West, Section 8 in Adams County, CO. The site-specific information detailing the water plan for the pad is included in Appendix A.

APPENDIX A

Site-Specific Water Plan Information

WATER PLAN

Project Name:	747 Pad	Region:	DJ Basin
Report Date:	10/30/2024	Proposed Start Date:	2Q2026
County, State:	Adams County, CO	Project Lat - Long:	39.80925,-104.69539
Location:	W2NW Sec 8, T3S, R65W		

A. Planned Source(s) General Information

Source Name	Drilling (bbls)	Completions (bbls)	Source Type	Coordinates
PureCycle Pond	0	13,424,400	Groundwater, Fresh	39.735833,-104.641958
Grover Water Depot	18,009	0	Groundwater, Fresh	40.870234,-104.210904
Baer Water	11,300	0	Groundwater, Fresh	41.107690,-104.49578
Wagistics Pond	4,944	0	Groundwater, Fresh	40.427171,-104.595645
Town of Eaton	1,059	0	Groundwater, Fresh	40.525390,-104.706690
	35,312	13,424,400		13,459,712

B. Planned Source(s) Seller Information

Source Name	Sellers Name	Address
PureCycle	Triton Resources, LLC	145 W Swallow Rd Bldg B, Ft. Collins, CO 80525
Grover Water Depot, Wagistics, Town of Eaton	ACME Oilfield Services, LLC	23378 CR 55, Kersey, CO 80644
Baer Water, Wagistics	Carrillos Trucking, LLC	2308 W 29th St, Suite 200, Greeley, CO 80631

C. Recycle/Reuse Plan

Source Name	Description
N/A	No water is expected to be available for re-use. During drillout operations, it is typical for Codell wells in this area to take net losses to formation.

D. Freshwater Justification

Due the this project location, there are no nearby facilities what would serve as a suitable and economic option for water recycling or reuse.
