General Comment:

On 5/20/2025, Western Reclamation Work Lead Trujillo and Northwest Reclamation Specialist Gaasche conducted a Final Reclamation inspection at Black Hills Plateau Production LLC's Currier 14-16 location in Mesa County, Colorado.

Location is within the following High Priority Habitats: Elk Severe Winter Range; Mule Deer Severe Winter Rangel; Mule Deer Winter Concentration Area

Refer to the Reclamation section of this inspection report for additional details.

Refer to the photo-documentation attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

1004.d. FINAL VEGETATION TRANSECT
 TRANSECT RESULTS OF DISTURBED AREA% _____
 TRANSECT RESULTS OF REFERENCE AREA% _____
 TOTAL % OF DESIRABLE VEGETATION COVER _____
 VEGETATIVE COVER _____

Comment:

Location appears to be in an irrigated hay field.

It was observed in this inspection that the Location has met ECMC 1004 revegetation requirements. However, the access road has not been reclaimed in accordance with ECMC 1004 Reclamation requirements; access road has not been decompacted, recontoured/regraded and reclaimed.

Operator filed a hearings application (docket #240200036) with a 502.b surface owner variance request from ECMC Rules 1004.c. (2-3), 1004.d. and 1004.e; for the Location and access road to be left in its current state.

The overall status of the Reclamation is being considered "in process" pending the Commission's decision, and resolution of the Variance Hearing Application.
