General Comment:

ECMC Field Inspection Report Summary

This is an environmental inspection to determine progress on Spill ID 490165 and Remediation Project # 36214. Any corrective actions from previous inspections, NOAVs and/or conditions of approval from previous forms that have not been fully addressed are still applicable. There were no operator or contract environmental personnel on location at the time of this field inspection. Photos attached to document site conditions.

Spill ID: 490165
Spill Name: Paragon Farms 42-25
Remediation Project #: 36214
Facility ID: 487123
Reported Date of Discovery: 05/07/2025
Date of Inspection: 05/14/2025

Spill is located within or adjacent to:
-Crop land (immediately adjacent, all directions)

Current site status:

- Two excavations remain open on location at the former produced water vessel and separator.
- No environmental impacts were visible in situ and no groundwater was observed in the open excavations.
- Orange construction fencing has been installed at both excavations but does not encompass the entire perimeter of the excavation in the area of the former separator.
- Three unmarked soil stockpiles are visible on location; no liners were visible.
- Signage with emergency contact number is visible.

See attached corrective actions.
