General Comment:

On 05/07/2025, Reclamation Specialist Maxwell conducted a stormwater and interim reclamation inspection at Fulcrum Energy's PRU Alcorn 0880 S10 Pad in Jackson County, Colorado.

This inspection is a follow-up to #712300080 dated 9/10/2024, to document compliance with the following corrective actions:

- Weeds
- Interim Reclamation
- Stormwater Management
- Stained/Impacted Soils

Refer to the "Location" and "Reclamation" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective actions from previous inspections that have not been addressed remain applicable. Any new corrective actions without corrective action dates, requires that the Operator comply with the Rules as soon as possible or when environmental conditions permit. Location will remain out of compliance until corrective action(s) has (have) been resolved and a follow up inspection will be conducted to ensure the compliance issues have been corrected to comply with ECMC rules.

Comment: Corrective Action: Date: **Good Housekeeping:**

Type	TRASH		
Comment:	It was observed in this inspection that various trash was observed throughout the Location; including areas along the perimeter and on the topsoil stockpile.		
Corrective Action:	Comply with Rule 606.	Date:	06/11/2025
Type	WEEDS		
Comment:	At the time of this inspection, weeds were not observed along the perimeter edges. Continue to monitor and manage weeds. This corrective action has been resolved.		
Corrective Action:		Date:	

Overall Good: ☐

Spills:				
Type	Area	Volume		
Comment:	What appears to cement was observed spilled on the Southeastern end of the Location.			
Corrective Action:	Comply with Rule 912.a and clean spill/impacts; comply with Rule 906.a-d for disposal of Non-E&P Waste.			Date: 07/02/2025
Comment:	Stained/impacted soils observed throughout areas of the pit facility, on the access road, and the surrounding Tank battery.			
Corrective Action:	Remove and properly dispose of impacted material pursuant to Rule 912.a. Clean/remediate impacts to Table 915-1 cleanup concentrations.			Date: 07/02/2025

In Containment: No

1003 f. Weeds Noxious weeds? _____

Comment In its current state, this Location does not comport with ECMC 1003 Requirements. However, Operator has submitted a new OGDG for the Location, that include plans on utilizing the entire, current, working pad surface for production Operations; OGDG is currently "in process" at time of inspection. The reclamation status of this Location is also considered "in process" pending the Commission's decision regarding the OGDG."

Comment:

No stormwater or erosion issues observed at this time on the Location. Monitor and manage stormwater for the following observations:

- The culvert at the entrance does not appear to have been installed with inlet/outlet protections per good engineering practices.
- It is unclear if the perimeter areas, including areas of the stormwater diversion ditch, were included during reclamation/revegetation efforts on the Location. A follow-up inspection will be conducted to evaluate compliance with 1003 and 1002.f requirements.
- It is unclear if geotextile lining under the riprap has been installed per good engineering practices
- Ponding liquid observed in the wellhead cellar

Corrective Action:

Date:

Pits: ☐ NO SURFACE INDICATION OF PIT
