Hey all,

Sorry for such a late response! Lilah and I were able to talk about this today on the phone. I have no concerns. Let me know if there is anything else I can do or if anything else pops up.

Thanks,
Cassy Penn

Thanks Andrew,

Cassy: I just left you a voicemail - please feel free to call back anytime if you have questions or would like to discuss anything.

We will go ahead and move forward with submitting these BMPs to ECMC (some of the forms need to be submitted now in order to meet timelines), especially since these operations are all scheduled outside the associated HPH seasons. I noted this plan to proceed in my voicemail to Cassy as well.

Andrew, I also just want to give you a heads up that our next list of consultation requests for workover operations is almost ready to send your way. I will cc the appropriate DWMs in case they have any questions/concerns.

Thank you again,

Lilah Hubbard

Thanks Lilah for checking in. I have added Cassy as a cc here.

I have no concerns. I know the DWMs have a lot on their plates, you could give her a call to connect if needed.

Good morning Andrew,

There are three more wells (Edith Ann-Duckworth wells) that are scheduled for P&A in the same area as the Duckworth wells. These three wells are outside HPH; however, the associated flowlines extend into the same bald eagle roost HPH area as the Duckworth wells. Since Cassy is in the process of reviewing the Duckworth wells, I wanted to get this info over to you ASAP so she can review these at the same time. Please find an updated list attached with the Edith Ann-Duckworth flowline work added. (The Aristocrat and State wells have been removed from this updated spreadsheet.)

Please let me know if you or Cassy have any questions. Thank you!

I heard back from Michael Grooms on Aristocrat Angus Federal 2-4-10, State 1G-16H, and State 01D-16H.

He has no concerns with work at these locations with the implementation of BMPs as proposed.

I am still waiting to hear from Cassy on the other locations.

Thanks,

Hello Lilah,

I have reviewed these requests, BMPs, and proposed timing for the work. I have no immediate concerns with the locations as proposed. I have forwarded these to the appropriate District Wildlife Managers to see if they have any concerns. I hope to hear back from them in the next few days.

Just a quick reminder that Lexi is now solely focused on non-oil and gas consultations so no need to cc her on these types of requests.

Thanks!

Andrew Newman
