General Comment:

On 6/18/2025, Western Reclamation Work Lead Trujillo conducted an interim reclamation and stormwater inspection at Laramie Energy LLC's CC/0697-03-07 Pad location in Garfield County, Colorado.

Pursuant to Order 1V-846, to demonstrate its capacity to perform interim reclamation, Laramie was required to provide additional financial assurance in the amount of \$84,921 ("Individual Location bonds") to cover the costs of interim reclamation for the Cascade Creek (CC) 697-03-07 as required by Rule 1003, except for achieving 1003.e.(2) 80% revegetation; Laramie was required provide additional financial assurance in the amount of \$37,000 to cover costs of achieving Rule 1003.e.(2) revegetation requirements ("Completed Interim Reclamation Bonds"). The commission will release each individual location bond upon complying with the terms of the Order.

On 6/12/2025, Operator submitted Form 4 #404238267 per the Order.

It was observed in this inspection that Operator has performed interim reclamation at the Cascade Creek (CC) 697-03-07 as required by Rule 1003, except for achieving 80% revegetation; Laramie appears to have satisfied the requirements for release of the "Individual Location Bond" for this Location. Including Financial Assurance for notification purposes.

The following compliance issues were observed during this inspection:
 -Stormwater
 -Signage

Refer to the Location, Reclamation and Stormwater sections of this inspection report for additional details.

Refer to the photo-documentation attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

1003 f. Weeds Noxious weeds? I

Comment It was observed in this inspection that interim reclamation including, but not limited to, recontouring, regrading, replacement of topsoil and revegetation activities have been performed on the Location. Plant germination/establishment is evident throughout the interim areas and appears to be progressing towards 1003.e.(2) standards. Noxious weeds not apparent at time of inspection.

Continue to monitor/manage interim areas until Location receives a passing final inspection. Conduct work as necessary to ensure site continues towards 1003 standards.

Well Release on Active Location

Multi-Well Location

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Ditches						
Compaction						
Sediment Traps						North WPS, slope drain
Sediment Traps						East WPS, slope drain
Waddles						Erosion Logs. Location perimeter.
Gravel						WPS, Sparse
Berms						
Seeding						
Hydro Mulch						Interim Areas

Comment: Operator has implemented slope drains on the north and east ends of the Location in order to discharge runoff from the Location; slope drains have not been constructed with properly engineered outlets; Outlets either missing armoring, or armoring is not per good engineering practices (outlet BMP inadequate in size, rip-rap material not installed in conjunction with geotextile lining missing, etc...)

Corrective Action: Comply with Rule 1002.f- install or repair BMPs in accordance with good engineering practices.

Date: 07/03/2025

Pits: NO SURFACE INDICATION OF PIT
