**ECMC Comments**

Comment	User	Date
Wells (2) are plugged and abandoned; ECMC form 42 notice of start of plugging operations doc #404103131 received on 02/21/2025. Wellhead OLF's have been removed; bellhole excavations observed at flowline pipe removal pull points between WH & battery (backfilled). The facility/ tank battery is being decommissioned; tanks and equipment removed. On location dump and process flowlines at facility/ battery are in process of removal. Remediation work at facility/ battery area is in progress.	maclarej	06/27/2025
As outlined on COGCC form 19 spill report Doc #404254755 received on 06/25/2025: While conducting facility decommissioning activities at Crestone Peak's Kugel 22-18, historical impacts were discovered. This was due in part to HC staining and odor. Lease operators are coached to do routine AVO inspections at all oil and gas facilities.	maclarej	06/27/2025
