Operator Best Management Practices

Operator Comments:

KMOG is requesting approval to install a permanent 15hp instrument air skid at the Eisenach Federal 30N-8HZ (location 327738). This installation will reduce emissions and the environmental impact of the facility by providing instrument air, instead of natural gas, to operate pneumatically controlled valves.

The instrument air skid installed at this location will provide instrument air to operate the facility equipment for the following wells: Eisenach & Preston 8-8K, Eisenach 32N-8HZ, Eisenach Federal 5N-8HZ, 30C-8HZ, 30N-8HZ (location 327738).

Additionally, KMOG is requesting approval to install small, permanent micro instrument air skids, housed in a cabinet measuring approximately 3'x5' on the Eisenach Federal 30N-8HZ well pads (location 327738). These air skids will provide instrument air, replacing natural gas, to operate the pneumatically controlled wellhead equipment for the following wells: Eisenach & Preston 8-8K, Eisenach 32N-8HZ, Eisenach Federal 5N-8HZ, 30C-8HZ, 30N-8HZ.

This equipment is not expected to result in additional traffic, light, or noise impacts to surrounding stakeholders.

Please see attachments for details.

KMOG plans to install the new equipment on July 31, 2025.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
