Subject: notice of intent to abandon registered flowlines in place at the Maudlin Gulch field

Jeff;

This email provides the Colorado Energy and Carbon Management Commission (ECMC) required notification for the planned in place abandonment of the remaining registered flowlines at the Maudlin Gulch field in Moffat County.

This work is being completed as part of the plugging and abandonment of the entire Maudlin Gulch field. A single Form 44 (ECMC document # 403967596) has been submitted to the ECMC regarding this planned work.

This work is scheduled to be started on or about July 1st, 2025 but may not be completed until August 31st, 2025.

If you have any questions, comments or objections to the planned abandonment work, you are required to provide your comments to the ECMC within 15 days of this notification. My contact for this work with the ECMC is listed below.
