Date of work March 20, 1973

A cement plug of 100 sacks of cement was set from 150' down to 450'. All pits were backfilled and the location was cleaned up as per the State of Colorado's specifications.

6/14/73 - Field inspection - Evidence of cement plug run since inspection of 10/27/72. Water leakage at wellhead shutoff, pits are backfilled but location is poorly leveled. Probably OK to release single bond. Jim

(BOND WAS RELEASED BY D. Rogers Nov. 21 1974)
