General Comment:

On 06/05/2025, Northwest Reclamation Specialist Maxwell, conducted a final reclamation inspection at Fulcrum Energy Operating's Buffalo Ditch 1-32H Oil and Gas Location in Jackson County, Colorado.

The Form 6S (# 401755764) was approved for abandonment 11/15/2018.

The Location is in the following HPH: Black bear and 1202.d. density Greater Sage-grouse Priority Habitat Management.

The following compliance issues were observed during this inspection:

- Weedy Debris
- Final Reclamation
- Flowline abandonment

Refer to the Location and Reclamation sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective actions from previous inspections that have not been addressed remain applicable. Any new corrective actions without corrective action dates, requires that the Operator comply with the Rules as soon as possible or when environmental conditions permit. Location will remain out of compliance until corrective action(s) has (have) been resolved and a follow up inspection will be conducted to ensure the compliance issues have been corrected to comply with ECMC rules.

 TOTAL % OF DESIRABLE VEGETATION COVER _____
 VEGETATIVE COVER _____

Comment:

It was observed in this inspection that Final Reclamation of the Location is not complete in accordance with 1004 requirements. Gravel/road base has not been removed from the Location; compaction issues remain apparent. Evidence of undesirable plant species (e.g., Russian Thistle) observed.

Previous revegetation efforts are evident, however plant germination and establishment is unsuccessful. It appears that compaction may be hindering plant growth.

Corrective Action: **Comply with Rules 1004.a., 1004.d., and 606.**
