Good morning, All,

ECMC has previously inspected the site detailed in the attached report and will perform a followup inspection as soon as possible. The Hazel McHale 2 Flowline spill has been assigned Spill ID #489684. ECMC will follow up with the reporting party and continue overseeing site investigation and remediation of this spill.

Let us know if you have any questions,

Laurel Anderson

Hello,

On 07/25/2025 at 1005 hours, we received an emailed report submitted directly into the system describing:

KP Kauffman dug out some of the contaminated soil creating a pit, which filled with water, then left it for three months due to a pipeline rupture.

Please see the attached report for more information.
