While there, I observed normal operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife black bear Management and Density habitat.

During this inspection the following possible compliance issues were observed:

3. Lack of battery signage
4. Well signage lacks information
5. Open load line
6. Tank label missing information
7. Weeds throughout location
8. Tank has multiple holes

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.
